

My name is Cecily Madanes. I made this game prototype in 2009 using iWeb. Back then the game was hosted via MobileMe at www.cecilyismyruca.com and you had to type in the www or else it wouldn't work. I am writing this on November 29th of 2012 at 12:45 am. This cool gal on twitter @lastnora inspired me to share the game. In the current version some stuff is broken, contact info within the game is incorrect, iWeb and MobileMe are now defunct, et cetera, et cetera, but RUCA still has a lot of heart. Know what I mean? Anyways, if you'd like to email me my preferred address is now cecilymadanes@gmail.com. For a look at some other cool stuff I've done visit ccceccc.com. A piece of me never left Indiex.
